

Low Capacity Tension & Compression Load Cell
Model: Duramount 21
Ranges from 0.3 to 50 Kg

The Duramount 21 universal low capacity load cell weighing assembly is ideal for cost sensitive force measurement applications. Using one of our ESP series load cell we can achieve an accuracy of 0.025% of full scale in either tension or compression. The load cell is built with a short cable for OEM applications or it can be easily optioned with a connector and mate with 5', 10', 25', and 50' of cable.

Capacities: 0.3, 0.6,
30, 35, 40, 50 Kg

CAPACITY (Kg)	L	W	H	T	CABLE LENGTH
0.3/ 0.6/ 1/ 3	2.76"	.47"	1.62"	6-32	15"
5/ 6/ 8/ 10/ 15/ 20/ 30/ 35/ 40/ 50	5.12"	1.18"	2.49"	1/4-28	15"
